Getting Started with Create React App

Available Scripts

Fisrtly, run:

`npm install`

Install all the dependencies.\

Then, run:

`npm start`

Runs the app in the development mode.
Open http://localhost:3000 to view it in your browser.

The page will reload when you make changes.
You may also see any lint errors in the console.

`npm test`

Launches the test runner in the interactive watch mode.
See the section about running tests for more information.

`npm run build`

To build source.
